## Projects

---

### 'When I Say You Say' Online Game

[ React.js ]

Association word game that rivals the addiction of Wordle. Concept and entire build in 48 hours over a weekend. Entirely responsive and built using react.js. Available to play at **whenisayyousay.com**

### Swap & Farms Web3 App

[ React.js / Typescript ]

A full defi suite of products including swap functionality, farming & liquidity pools, bridging & revenue share. Contributed to a codebase with over 10+ developers at once.

**<https://app.arc.market>**

### NFT Marketplace

[ React.js / Typescript / Solidity ]

NFT Marketplace including batch lazy-minting, custom 721 & 1155 solidity contracts, revenue share and a futuristic UI / UX.
